

RAVI RAMANI

Software Engineer · Automation Engineer · Full-Stack / Python / C# / Angular / AI

Berlin, Germany | +49 176 84155413 | raviramani196@gmail.com | GitHub | LinkedIn

SUMMARY

Software engineer with 3+ years of full-stack and automation development experience, currently working as an **Automation Engineer at Mercedes-Benz MBition** in Berlin, building **Python-based test frameworks** and **GitLab CI/CD pipelines** for automotive infotainment software. Experienced in **C#, ASP.NET Core, Angular**, and **machine learning** (LightGBM, PyTorch, LangChain). Pursuing an MSc at Universität Koblenz. Passionate about writing clean, well-tested code and building software that solves real problems.

SKILLS

Backend	Python, C#, Java, .NET, ASP.NET Core, REST APIs, Entity Framework Core, FastAPI
Frontend	Angular, TypeScript, JavaScript, React, HTML5, CSS3
Automation & Testing	Robot Framework, Pytest, xUnit, GitLab CI/CD, Test Framework Design, API Testing, Jenkins
Machine Learning	PyTorch, TensorFlow, LangChain, OpenAI API, Scikit-learn, LightGBM, Pandas, NumPy, Streamlit
Cloud & DevOps	Git, GitLab, GitHub Actions, Docker, AWS, Azure, Postman, Swagger
Databases	SQL Server, MySQL, Firebase

EXPERIENCE

Automation Engineer (Working Student)

Mar 2026 – Present

MBition Mercedes-Benz Innovation Platform | Berlin, Germany

- ▶ Designing and developing a **Python-based test automation framework** for next-generation automotive infotainment software, covering system functionality, REST APIs, and hardware-software integration testing.
- ▶ Building automated test suites with **Robot Framework and Pytest**, integrated into **GitLab CI/CD pipelines** to enable continuous validation across development and release cycles.
- ▶ Developing custom **Python tooling** to streamline test execution, reduce manual debugging overhead, and improve automation coverage for the team.

Software Engineer

Feb 2022 – Aug 2024

Advanced | Baroda, India

- ▶ Built and maintained a **multi-module SaaS finance platform** serving enterprise clients as a full-stack developer using **C#, ASP.NET Core**, and **Angular**.
- ▶ Optimised backend performance for a mission-critical finance system using **EF Core query tuning**, reducing database latency by **20%** and eliminating **100% of FOSSA security vulnerabilities** (OWASP compliance, XSS protection).
- ▶ Designed and built a **mobile REST API from scratch** using ASP.NET Core, enabling cross-platform access to core platform features; additionally extended an existing internal API to integrate two separate company products.
- ▶ Led migration of the frontend from **Angular 12 to Angular 17** and backend from **.NET 4 to .NET 8**, modernising the full stack, improving performance, and ensuring long-term maintainability.
- ▶ Reduced API integration overhead by adopting **Swagger documentation**, cutting manual documentation effort and improving onboarding speed for new team members.
- ▶ Rebuilt responsive **Angular front-ends** (TypeScript, HTML5, CSS3), boosting **Lighthouse accessibility scores by 30%** and aligning UI with modern UX standards.

Junior Web Developer (Intern)

Jan 2021 – Jun 2021

InfoLabZ | Ahmedabad, India

- ▶ Diagnosed and resolved a critical UI regression affecting **10K+ users**, reducing support ticket volume by **30%** within one sprint.

PROJECTS

AppTracker – Full-Stack Job Application Tracker | *ASP.NET Core · Angular · SQL Server · xUnit · GitHub Actions · Azure*

- ▶ Built a full-stack job application tracking platform using **ASP.NET Core (C#)** REST API and **Angular**, featuring **JWT authentication**, real-time status tracking, and an analytics dashboard visualising application pipeline metrics.
- ▶ Wrote a comprehensive **xUnit test suite** covering unit and integration tests, integrated into a **GitHub Actions CI/CD pipeline** that automatically runs on every push and blocks deployment on test failure.
- ▶ Deployed the application to **Azure App Service** with a **SQL Server** backend, ensuring the product is live, accessible, and production-ready.

Customer Churn Prediction Machine Learning | *Python · Scikit-learn · LightGBM · Pandas · Streamlit*

- ▶ Built an end-to-end churn prediction pipeline on telecom data using **EDA**, **feature engineering**, and statistical analysis to identify key churn drivers.
- ▶ Trained and tuned **Logistic Regression**, **Random Forest**, and **LightGBM** models, achieving **94.1% accuracy** and **78.2% F1-score**; served predictions via a **REST API** using **FastAPI**.
- ▶ Visualised key churn trends with **Matplotlib** and **Seaborn**, producing stakeholder-ready insight reports.

Rostering AI Staff Scheduling Platform | *Angular · ASP.NET Core · Google OR-Tools · TypeScript*

- ▶ Implemented **constraint-based shift rostering** using **Google OR-Tools** to automatically generate optimal schedules and improve workforce allocation fairness.
- ▶ Built the full front-end in **Angular (TypeScript)** with FullCalendar, integrated with **ASP.NET Core** RESTful APIs; delivered a fully functional prototype in **48 hours**.

AI-Driven Sales Forecasting Pipeline | *Python · ARIMA · Facebook Prophet · Scikit-learn*

- ▶ Engineered an end-to-end forecasting pipeline (ingest → clean → model → evaluate) using **ARIMA** and **Facebook Prophet**, achieving RMSE **12% below baseline** across an 18-month validation window.
- ▶ Built automated **feature engineering** and **anomaly detection** that flagged irregular sales patterns **48 hours earlier** than prior manual review, enabling proactive inventory decisions.

EDUCATION

MSc. E-Government (Computer Science track)

Apr 2025 – Present

Universität Koblenz, Koblenz, Germany

Relevant coursework: Big Data, Engineering Web & Data Intensive Systems, Introduction to Data Science, Web Retrieval

B.E. in Information Technology

Jul 2018 – Jun 2022

Gujarat Technological University, Gujarat, India

GPA: 1.4/4 First Class with Distinction

CERTIFICATIONS

- ▶ Build an App with ASP.NET Core and Angular from Scratch | Udemy | 2023
- ▶ Angular – The Complete Guide (2024 Edition) | Udemy | 2024
- ▶ Complete C# Masterclass | Udemy | 2023
- ▶ .NET Core MVC – The Complete Guide 2024 (.NET8) | Udemy | 2024

LANGUAGES

- ▶ English: Fluent Full Professional Proficiency
- ▶ German: Professional Working Proficiency
